

REMARKS/ARGUMENTS

Claims 1-18 are pending in the application; the status of the claims is as follows:

Claims 1-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicants regard as the invention.

Claims 1-18 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-29 of copending Application No. 10/082,841.

Claims 1 and 8-18 have been amended to correct matters of form. These changes do not introduce any new matter.

35 U.S.C. § 112 Rejection

The rejection of claims 1-18 under the second paragraph of 35 U.S.C. § 112 as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicants regard as the invention, is respectfully traversed based on the following.

Claims 1 and 8-18 have been amended to address the matters of form cited in the present Office Action. Claims 2-7 are dependent upon claim 1 and thus the corrections to claim 1 correct the matters of form related to these claims.

The Office Action states that claim “1 is considered incomplete because it is essential to the instant process that the pond water comprised phosphate and silicic acid ...”. However, as noted at page 6, lines 20-25, the term “pond water” includes those materials. Therefore, fluoride, phosphate, and silicic acid are included in the claim by the use of the term “pond water.” Therefore, there is no essential element missing from the claim.

Accordingly, it is respectfully requested that the rejection of claims 1-18 under the second paragraph of 35 U.S.C. § 112 as being indefinite for failing to particularly point

out and distinctly claim the subject matter which Applicants regard as the invention, be reconsidered and withdrawn.

Double Patenting Rejection

The provisional rejection of claims 1-18 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-29 of copending Application No. 10/082,841, is respectfully traversed based on the following.

It is noted that section 804.02 of the MPEP states that:

A rejection based on a nonstatutory type of double patenting can be avoided by filing a terminal disclaimer in the application or proceeding in which the rejection is made.

and further that:

The filing of a terminal disclaimer to obviate a rejection based on nonstatutory double patenting is not an admission of the propriety of the rejection.

Accordingly, a terminal disclaimer prepared and executed in accordance with section 1490 of the MPEP is submitted herewith.

Accordingly, it is respectfully requested that the provisional rejection of claims 1-18 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-29 of copending Application No. 10/082,841, be reconsidered and withdrawn.

CONCLUSION

Wherefore, in view of the foregoing amendments and remarks, this application is considered to be in condition for allowance, and an early reconsideration and a Notice of Allowance are earnestly solicited.
